

# STRUCTURAL WOOD SYSTEMS

DIVISION OF HARRISON INDUSTRIES, INC.

## THE PINE PRESS

4TH QUARTER 2015

VOL 4 ISSUE 4

Structural Wood Systems continues to soar to new heights thanks to our brilliant staff and our loyal customer base. 2015 has proven to be one of our most productive years to date and we owe many thanks to you all for this exceptional news. We have been very fortunate this year to make expansions across the board.

We are looking forward to seeing what the next chapter has in store for this great company!

## FEATURED PROJECT NaturePlex

The beauty and warmth of wood is characterized perfectly in the photograph above by the large scissor trusses with large glulam columns and beams, and solid timber decking.

The NaturePlex is an educational center that will educate both youth and adults on the topic of conservation.

Structural Wood Systems recently had the honor of providing laminated wood beams and solid timber decking for the Alabama Wildlife Federation's NaturePlex facility. Located in Millbrook, Alabama, the NaturePlex will serve as the Welcome and Education Center for the Alabama Nature Center.

SWS Sales Representative, Frank Sledge, worked very closely with Marshall Design-Build, LLC. in ensuring the project represented exactly what the Alabama Wildlife Federation envisioned.
