Project Spotlight Conecuh Sausage Gift Shop

One of the South's most popular companies is preparing to open a new gift shop for visitors. Founded in 1947, Conecuh Sausage is located in Evergreen, Alabama.

SWS was happy to have provided the laminated materials and decking for the company's new gift shop. Once complete, customers will be able to shop for their favorite Conecuh products, along with gifts, and other complementary items under the custom stained SWS trusses and decking. The exterior trusses provide a covered front entrance with a wrap around porch for an outdoor seating area where customers can enjoy an array of products the new gift shop will feature.

SWS Sales Representative, Frank Sledge, worked closely with both the contractor and the owners to ensure a smooth process from the initial bidding stage to the final installation of the materials. You can plan to visit the new gift shop in 2021!

Parallel chord trusses were used for the interior of the building. The exposed black hardware lend a rustic feel to the new building.

The above photo shows the exterior trusses and decking as they were being installed.

The large interior trusses span the entire width of the building.
