

## COMPANY SPOTLIGHT: Bonnie Plants Headquarters

Bonnie Plants' new headquarters in Opelika, Alabama opened this past January. Gov. Kay Ivey spoke at the grand opening and ribbon-cutting ceremony (pictured right top).

Founded in 1918, Bonnie Plants has continued to grow and expand. They are now the largest national supplier and producer of vegetable and herb plants for home gardens in the United States. Structural Wood Systems is proud to have provided the glulam materials for this long-time Alabama company.

The new headquarters was designed to offer a lot of natural light with both indoor and outdoor workspaces (pictured right). SWS Sales Representative, Frank Sledge, worked diligently on this project to ensure the project was completed successfully.
