

Celebrating 50 Years as SWS

Staying Ahead of the Game!

Structural Wood Systems is celebrating 50 years in business. With all those years comes a lot of experience. This experience allows SWS to plan and coordinate 100s of projects across the US each year.

SWS works tirelessly to ensure we meet the construction schedule for each customer. We keep a large lumber inventory (pictured right), including treated lumber (pictured bottom right), for all ongoing projects. We also pre-glue larger projects (pictured top left) in anticipation of fabrication and delivery schedules. We have finished materials ready just before or precisely when the customers need them at the job site. We keep drop trailers on-site, ready to be loaded with finished projects (pictured top right).

Scheduling our manufacturing process to meet customer demand is a top priority for SWS. Thank you for supporting SWS and allowing us to provide your glulam, timber, and decking materials. We look forward to serving you for another 50 years!
