DIVISION OF HARRISON INDUSTRIES, INC.

THE PINE PRESS

1ST QUARTER 2015

VOL 4 ISSUE 1

As the first quarter of 2015 draws to a close, we are proud to announce our new and improved website. We invite everyone to visit the new website, www.structuralwood.com! One major change is the stain selection chart under the Resources Tab. You can also download our brochure and any newsletters you may have missed. SWS also hopes you will like/follow us on Facebook. We hope everyone is having a great start to 2015 and can't wait to work with you this year!

The beauty of the laminated members and decking is enhanced by the two stain colors that were factory applied at SWS.

The use of glulam beams and timber decking throughout Cabela's compliments the rustic and rugged outdoor décor the company prefers.

The simple scissor trusses add an understated elegance to the structural design.

FEATURED PROJECT CABELA'S

Structural Wood Systems has provided materials for several Cabela's throughout the years. Recently, we were able to be a part of two new Cabela's being built in Georgia. The Acworth, GA store opened August 21, 2014. The newest store in Fort Oglethorpe, GA is scheduled to open this spring.

Cabela's, which began as a mail-order business over 40 years ago, has grown into one of the leading outdoor outfitters. Their stores are as much educational centers as retail stores and always customer friendly. The Acworth store boasts outdoor dog kennels and the highlights of Georgia State Parks.

SWS Sales Agent, Kenny Williams, worked closely with the same contractor for both of these projects. The SWS dedication to quality shines through at each of these locations. All in all, SWS has provided our quality glulam and decking on a number of Cabela's throughout the United States. We look forward to future opportunities to supply our custom materials for future Cabela's across the country.
