

COMPANY SPOTLIGHT:

Atlanta Postal Credit Union (APCU)

Following a successful collaboration on The Center Park Credit Union flagship branch, SWS eagerly embarked on another project with The Redmond Company: the new APCU Headquarters in Atlanta, GA. The APCU project promised to be another remarkable endeavor. SWS Sales Representative Brandon Andrews worked closely with The Redmond Company to perfect the design of the glulam roof system. The APCU design was a reflection of the Center Park building.

Over 97,000 board feet of glulam material and 48,000 board feet of laminated wood decking were manufactured for the roof system on this project. Photos (above & right) highlight the glulam and decking as a focal point on top of the 5-story building.

As the project nears completion, look for finished photos on our Facebook site.
